Identify the bills and prices by circling them with the correct color.

You are given one example of a combination that will equal the amount but there are other ways to make each amount as well.

\$5.00 = RED

\$15.00 - BLUE

\$20.00 = GREEN

\$30.00 = PURPLE

\$20

\$5

\$15

\$30

Name: \_\_\_\_\_

Date: \_\_\_\_\_

Cut and glue the money needed into the box for each scenario.

Sometimes you will need to glue more than one bill. It is okay if they overlap.

Q: Who gives crocodiles presents on Christmas?

A: Santa-Jaws!

This crocodile spends \$15 on presents for his friends.

The monkey loves bananas! Good thing they are cheap. Two dollars gets 12 bananas.

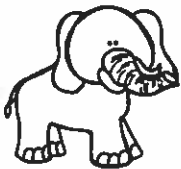

Q: What's black and white and red all over?

A: A sunburned Zebra!

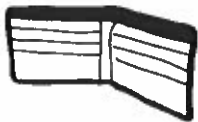

Sunscreen costs \$10.00.

Seeing the lion makes you think of Katy Perry's song "Roar" so you buy it on iTunes for \$1.00.

You buy a bag of peanuts for \$6 because you think the elephant might enjoy them as a treat.

Do you have money left over? If so, put the extra money back into your wallet.

Cut and glue the time that matches each item. Circle AM or PM.

The giraffe wakes up at 4:30 and eats leaves for breakfast.

AM

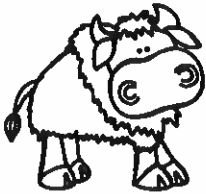

PM

The hippo takes a bath in the mud at 10:00 before falling asleep at night.

AM

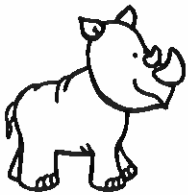

PM

The buffalo walks with the herd at 2:00 in the daylight.

AM

PM

The rhino is grumpy when he wakes up in the morning at 5:30.

AM

PM

The lion roars loudly at 12:00 and all the animals wake up from their sleep and run away.

AM

PM

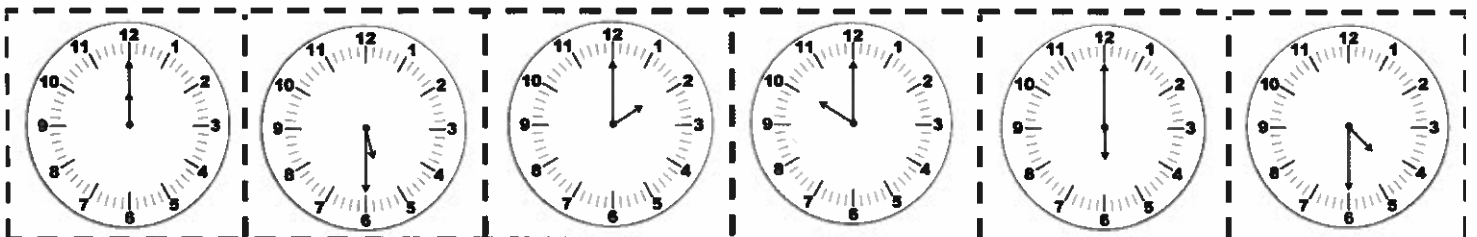

The monkey swings through the trees at 6:00 as the sun starts to set for the day.
